(Hangzhou- August 18, 2022)- NetEase, Inc. (NASDAQ: NTESE and HKEX: 9999, “NetEase” or the “Company”), one of China’s leading internet and online game services providers, today announced its unaudited financial results for the second quarter ended June 30, 2022.

Second Quarter 2022 Financial Highlights

- Net revenues were RMB23.2 billion (US\$3.5 billion), an increase of 12.8% compared with the second quarter of 2021.
- Games and related value-added services net revenues were RMB18.1 billion (US\$2.7 billion), an increase of 15.0% compared with the second quarter of 2021.^[1]
- Youdao net revenues were RMB956.2 million (US\$142.8 million), a decrease of 26.1% compared with the second quarter of 2021.
- Cloud Music net revenues were RMB2.2 billion (US\$327.2 million), an increase of 29.5% compared with the second quarter of 2021.
- Innovative businesses and others net revenues were RMB1.9 billion (US\$279.4 million), an increase of 6.1% compared with the second quarter of 2021.^[1]
- Gross profit was RMB12.9 billion (US\$1.9 billion), an increase of 15.7% compared with the second quarter of 2021.
- Total operating expenses were RMB8.0 billion (US\$1.2 billion), an increase of 7.6% compared with the second quarter of 2021.

[1] Effective as of the second quarter of 2022, the Company renamed its “online game services” segment as “games and related value-added services,” and transferred certain business lines that are related or ancillary to its games from “innovative businesses and others” to “games and related value-added services.” The Company retrospectively recast prior periods’ segment information to conform to the current period presentation. See “Change in Segment Reporting” in this announcement.

- Net income from continuing operations attributable to the Company’s shareholders was RMB4.7 billion (US\$696.7 million). Non-GAAP net income from continuing operations attributable to the Company’s shareholders was RMB5.4 billion (US\$807.7 million).^[2]
- Basic net income from continuing operations per share was US\$0.21 (US\$1.07 per ADS). Non-GAAP basic net income from continuing operations per share was US\$0.25 (US\$1.23 per ADS).^[2]

Second Quarter 2022 and Recent Operational Highlights

- Delivered captivating content updates for popular title *Naraka: Bladepoint* and launched its Xbox version in June.
- *Diablo® Immortal™*, co-developed by NetEase and Blizzard Entertainment, made its debut in the global market, which topped iOS download charts in multiple regions.
- Extended the longevity of leading franchise titles including both the *Fantasy Westward Journey* and *Westward Journey Online* series and maintained the popularity of other hit titles including *Identity V* and *Infinite Lagrange*.
- Propelled pipeline by advancing new games under development including *Naraka: Bladepoint* mobile game, *Justice* mobile game and *Ghost World Chronicle*, as well as the roll-out of *Harry Potter: Magic Awakened* in international markets.
- Achieved positive operating cashflow from Youdao, maintained sound development of its STEAM courses and demonstrated the resilience of its smart devices.
- Enhanced content and product innovation at Cloud Music, driving solid growth in net revenues and continued margin improvement while securing multiple licensing agreements with major overseas and domestic music labels including SM Entertainment and TF Entertainment.

“In the second quarter, we generated solid results with total net revenues of RMB23.2 billion, an increase of 12.8% year-over-year,” said Mr. William Ding, CEO and Director of NetEase. “Players continued to gravitate to our longstanding games in the second quarter, highlighting our strength in game operations longevity. Moreover, the launch of *Diablo® Immortal™* attracted the attention of gamers around the world, showcasing our exceptional mobile game development capabilities. With our strong in-house R&D team in China and our very own studios in Canada, Japan and the U.S., as well as plans for other regions in the future, we are spearheading the next generation of top-quality games for the global gaming community.

[2] As used in this announcement, non-GAAP net income from continuing operations attributable to the Company’s shareholders and non-GAAP basic and diluted net income from continuing operations per share and per ADS are defined to exclude share-based compensation expenses. See “Unaudited Reconciliation of GAAP and Non-GAAP Results” at the end of this announcement.

“Youdao and Cloud Music are also making key advancements that bolster their operations. With exciting gains across our business lines, we hope to make the NetEase brand synonymous with impressive technology, outstanding service and entertainment in its finest form,” Mr. Ding concluded.

Second Quarter 2022 Financial Results

Net Revenues

Net revenues for the second quarter of 2022 were RMB23,159.1 million (US\$3,457.6 million), compared with RMB23,555.8 million and RMB20,524.5 million for the preceding quarter and the second quarter of 2021, respectively.

Net revenues from games and related value-added services, which include both the operation of online games as well as other related or ancillary services to the games, were RMB18,139.8 million (US\$2,708.2 million) for the second quarter of 2022, compared with RMB18,641.8 million and RMB15,774.8 million for the preceding quarter and the second quarter of 2021, respectively. Net revenues from the operation of online games, which is the primary component of this segment, accounted for approximately 92.8% of net revenues from games and related value-added services for the second quarter of 2022, compared with 92.7% and 92.1% for the preceding quarter and the second quarter of 2021, respectively. Net revenues from mobile games accounted for approximately 66.1% of net revenues from the operation of online games for the second quarter of 2022, compared with 66.9% and 72.1% for the preceding quarter and the second quarter of 2021, respectively.

Net revenues from Youdao were RMB956.2 million (US\$142.8 million) for the second quarter of 2022, compared with RMB1,200.5 million and RMB1,293.4 million for the preceding quarter and the second quarter of 2021, respectively.

Net revenues from Cloud Music were RMB2,191.5 million (US\$327.2 million) for the second quarter of 2022, compared with RMB2,067.2 million and RMB1,692.5 million for the preceding quarter and the second quarter of 2021, respectively.

Net revenues from innovative businesses and others were RMB1,871.5 million (US\$279.4 million) for the second quarter of 2022, compared with RMB1,646.3 million and RMB1,763.8 million for the preceding quarter and the second quarter of 2021, respectively.

Gross Profit

Gross profit for the second quarter of 2022 was RMB12,941.5 million (US\$1,932.1 million), compared with RMB12,836.4 million and RMB11,189.6 million for the preceding quarter and the second quarter of 2021, respectively.

The year-over-year increase in games and related value-added services gross profit was primarily due to increased net revenues from both mobile and PC games, including the newly launched *Naraka: Bladepoint* and *Harry Potter: Magic Awakened* which were released in the third quarter of 2021 and other existing games such as *Fantasy Westward Journey Online*.

The quarter-over-quarter decrease in Youdao gross profit primarily resulted from a decline in economic scale due to decreased learning services revenues in the second quarter of 2022. The year-over-year decrease was mainly due to the conclusion of its after-school tutoring services for academic subjects under China's compulsory education system.

The quarter-over-quarter and year-over-year increases in Cloud Music gross profit were primarily due to increased net revenues from its membership subscriptions and social entertainment services, as well as improved cost control.

The quarter-over-quarter increase in innovative businesses and others gross profit was primarily due to increased gross profit contribution from Yanxuan and advertising services.

Gross Profit Margin

Gross profit margin for games and related value-added services for the second quarter of 2022 was 64.9%, compared with 62.2% and 63.2% for the preceding quarter and the second quarter of 2021, respectively. Gross profit margin for games and related value-added services is generally stable, fluctuating within a narrow band based on the revenue mix of NetEase's mobile and PC games, self-developed, co-developed and licensed games, as well as the relative revenue contribution from different distribution channels.

Gross profit margin for Youdao for the second quarter of 2022 was 42.8%, compared with 53.1% and 52.3% for the preceding quarter and the second quarter of 2021, respectively. The quarter-over-quarter and year-over-year decreases were primarily attributable to the factors enumerated above.

Gross profit margin for Cloud Music was 13.0% for the second quarter of 2022, compared with 12.2% and 4.1% for the preceding quarter and the second quarter of 2021, respectively. The quarter-over-quarter and year-over-year improvements were mainly due to the factors enumerated above.

Gross profit margin for innovative businesses and others for the second quarter of 2022 was 25.8%, compared with 21.7% and 27.3% for the preceding quarter and the second quarter of 2021, respectively. The quarter-over-quarter and year-over-year fluctuations were mainly due to changes in the gross profit margin from advertising services.

Operating Expenses

Total operating expenses for the second quarter of 2022 were RMB7,995.2 million (US\$1,193.6 million), compared with RMB7,329.3 million and RMB7,431.5 million for the preceding quarter and the second quarter of 2021, respectively. The quarter-over-quarter and year-over-year increases were mainly due to increased marketing expenditures related to games and related value-added services, as well as higher staff-related costs and research and development investments.

Other Income/ (Expenses)

Other income/ (expenses) consisted of investment income/ (loss), interest income, exchange gains/ (losses) and others. The quarter-over-quarter increase was mainly due to net unrealized exchange gains arising from the Company's U.S. dollar-denominated bank deposits and loans balances as the exchange rate of the U.S. dollar against the RMB fluctuated in the second quarter of 2022.

Income Taxes

The Company recorded a net income tax charge of RMB1,259.3 million (US\$188.0 million) for the second quarter of 2022, compared with RMB1,219.3 million and RMB1,113.2 million for the preceding quarter and the second quarter of 2021, respectively. The effective tax rate for the second quarter of 2022 was 22.0%, compared with 22.0% and 24.3% for the preceding quarter and the second quarter of 2021, respectively. The effective tax rate represents certain estimates by the Company as to the tax obligations and benefits applicable to it in each quarter.

Net Income and Non-GAAP Net Income

Net income from continuing operations attributable to the Company's shareholders totaled RMB4,666.6 million (US\$696.7 million) for the second quarter of 2022, compared with RMB4,394.0 million and RMB3,541.8 million for the preceding quarter and the second quarter of 2021, respectively. Net income from discontinued operations attributable to the Company's shareholders totaled RMB624.9 million (US\$93.3 million), which was related to the disposal of the *Kaola* business.

Non-GAAP net income from continuing operations attributable to the Company's shareholders totaled RMB5,409.8 million (US\$807.7 million) for the second quarter of 2022, compared with RMB5,117.6 million and RMB4,227.9 million for the preceding quarter and the second quarter of 2021, respectively.

NetEase reported basic net income from continuing operations of US\$0.21 per share (US\$1.07 per ADS) for the second quarter of 2022, compared with US\$0.20 per share (US\$1.00 per ADS) and US\$0.16 per share (US\$0.79 per ADS) for the preceding quarter and the second quarter of 2021, respectively.

NetEase reported non-GAAP basic net income from continuing operations of US\$0.25 per share (US\$1.23 per ADS) for the second quarter of 2022, compared with US\$0.23 per share (US\$1.17 per ADS) and US\$0.19 per share (US\$0.94 per ADS) for the preceding quarter and the second quarter of 2021, respectively.

Quarterly Dividend

The board of directors has approved a dividend of US\$0.0720 per share (US\$0.3600 per ADS) for the second quarter of 2022 to holders of ordinary shares and holders of ADSs as of the close of business on September 1, 2022, Beijing/ Hong Kong Time and New York Time, respectively, payable in U.S. dollars. For holders of ordinary shares, in order to qualify for the dividend, all valid documents for the transfer of shares accompanied by the relevant share certificates must be lodged for registration with the Company's Hong Kong branch share registrar, Computershare Hong Kong Investor Services Limited, at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong no later than 4:30 p.m. on September 1, 2022 (Beijing/ Hong Kong Time). The payment date is expected to be on September 13, 2022 for holders of ordinary shares and on or around September 16, 2022 for holders of ADSs.

NetEase paid a dividend of US\$0.0644 per share (US\$0.3220 per ADS) for the first quarter of 2022 in June 2022.

Under the Company's current dividend policy, the determination to make dividend distributions and the amount of such distribution in any particular quarter will be made at the discretion of its board of directors and will be based upon the Company's operations and earnings, cash flow, financial condition and other relevant factors.

Other Information

As of June 30, 2022, the Company's total cash and cash equivalents, current and non-current time deposits and restricted cash, as well as short-term investments balance, minus short-term and long-term loans totaled RMB87.7 billion (US\$13.1 billion), compared with RMB85.6 billion as of December 31, 2021. Cash flow generated from operating activities was RMB6.6 billion (US\$990.0 million) for the second quarter of 2022, compared with RMB4.6 billion and RMB4.7 billion for the preceding quarter and the second quarter of 2021, respectively.

Change in Segment Reporting

Effective as of the second quarter of 2022, the Company implemented certain changes to align its segment financial reporting more closely with the manner in which the Company's management currently receives and uses financial information to allocate resources and evaluate the performance of reporting segments. The Company renamed its "online game services" segment as "games and related value-added services," and transferred certain business lines that are related or ancillary to its games from "innovative businesses and others" to "games and related value-added services," including the NetEase CC live streaming service (a platform offering various live streaming content with a primary focus on game broadcasting) and other value-added services. The Company retrospectively recast prior periods' segment information to conform to current period presentation. These changes had no impact on NetEase's previously reported consolidated net revenues, net income or net income per share.

Share Repurchase/ Purchase Program

On February 25, 2021, the Company announced that its board of directors had approved a new share repurchase program of up to US\$2.0 billion of the Company's outstanding ADSs and ordinary shares in open market transactions for a period not to exceed 24 months beginning on March 2, 2021. On August 31, 2021, the Company announced that its board of directors had approved an amendment to such program to increase the total authorized repurchase amount to US\$3.0 billion. As of June 30, 2022, approximately 23.6 million ADSs had been repurchased under this program for a total cost of US\$2.3 billion.

On August 31, 2021, the Company announced that its board of directors had approved a share purchase program of up to US\$50.0 million of Youdao's outstanding ADSs for a period not to exceed 36 months beginning on September 2, 2021. Under the terms of this program, NetEase may purchase Youdao's ADSs in open-market transactions on the New York Stock Exchange. As of June 30, 2022, approximately 1.7 million ADSs had been purchased under this program for a total cost of US\$17.7 million.

The Company also purchased approximately 0.8 million ordinary shares of Cloud Music in open market transactions on the Hong Kong Stock Exchange for a total cost of US\$8.3 million during the second quarter of 2022.

The extent to which NetEase repurchases its ADSs and its ordinary shares or purchases Youdao's ADSs and Cloud Music's ordinary shares will depend upon a variety of factors, including market conditions. These programs may be suspended or discontinued at any time.

** The United States dollar (US\$) amounts disclosed in this announcement are presented solely for the convenience of the reader. The percentages stated are calculated based on RMB.

Conference Call

NetEase's management team will host a teleconference call with simultaneous webcast at 8:00 a.m. New York Time on Thursday, August 18, 2022 (Beijing/ Hong Kong Time: 8:00 p.m., Thursday, August 18, 2022). NetEase's management will be on the call to discuss the quarterly results and answer questions.

Interested parties may participate in the conference call by dialing 1-323-701-0160 and providing conference ID: 1239376, 15 minutes prior to the initiation of the call. A replay of the call will be available by dialing 1-719-457-0820 and entering passcode 1239376#. The replay will be available through August 31, 2022.

This call will be webcast live and the replay will be available for 12 months. Both will be available on NetEase's Investor Relations website at <http://ir.netease.com/>.

About NetEase, Inc.

As a leading internet technology company based in China, NetEase, Inc. (NASDAQ: NTES and HKEX:9999, "NetEase") provides premium online services centered around content creation. With extensive offerings across its expanding gaming ecosystem, the Company develops and operates some of China's most popular and longest running mobile and PC games. Powered by industry-leading in-house R&D capabilities in China and globally, NetEase creates superior gaming experiences, inspires players, and passionately delivers value for its thriving community worldwide. By infusing play with culture and education with technology, NetEase transforms gaming into a meaningful vehicle to build a more entertaining and enlightened world.

Beyond games, NetEase service offerings include its majority-controlled subsidiaries *Youdao* (NYSE: DAO), China's leading technology-focused intelligent learning company, and *Cloud Music* (HKEX: 9899), China's leading online music content community, as well as *Yanxuan*, NetEase's private label consumer lifestyle brand.

NetEase's ESG initiatives are among the best in the global media and entertainment industry, earning it a distinction as one of the S&P Global Industry Movers and an "A" rating from MSCI. For more information, please visit: <http://ir.netease.com/>.

Forward Looking Statements

This announcement contains statements of a forward-looking nature. These statements are made under the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify these forward-looking statements by terminology such as "will," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates" and similar statements. In addition, statements that are not historical facts, including statements about NetEase's strategies and business plans, its expectations regarding the growth of its business and its revenue and the quotations from management in this announcement are or contain forward-looking statements. NetEase may also make forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission (the "SEC"), in announcements made on the website of The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange"), in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. The accuracy of these statements may be impacted by a number of business risks and uncertainties that could cause actual results to differ materially from those projected or anticipated, including risks related to: the risk that the online game market will not continue to grow or that NetEase will not be able to maintain its position in that market in China or globally; the risk that COVID-19 or other health risks in China or globally could adversely affect the Company's operations or financial results; risks associated with NetEase's business and operating strategies and its ability to implement such strategies; NetEase's ability to develop and manage its operations and business; competition for, among other things, capital, technology and skilled personnel; potential changes in government regulation that could adversely affect the industry and geographical markets in which NetEase operates, including, among others, initiatives to enhance supervision of companies listed on an overseas stock exchange and tighten scrutiny over data privacy and data security, as well as the risk that NetEase's ADSs could be barred from trading in the United States as a result of the Holding Foreign Companies Accountable Act and the rules promulgated thereunder; the risk that NetEase may not be able to continuously develop new and creative online services or that NetEase will not be able to set, or follow in a timely manner, trends in the market; competition in NetEase's existing and potential markets; and the risk that fluctuations in the value of the Renminbi with respect to other currencies could adversely affect NetEase's business and financial results. Further information regarding these and other risks is included in NetEase's filings with the SEC and announcements on the website of the Hong Kong Stock Exchange. NetEase does not undertake any obligation to update this forward-looking information, except as required under the applicable law.

Non-GAAP Financial Measures

NetEase considers and uses non-GAAP financial measures, such as non-GAAP net income from continuing operations attributable to the Company's shareholders and non-GAAP basic and diluted net income from continuing operations per ADS and per share, as supplemental metrics in reviewing and assessing its operating performance and formulating its business plan. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

NetEase defines non-GAAP net income from continuing operations attributable to the Company's shareholders as net income from continuing operations attributable to the Company's shareholders excluding share-based compensation expenses. Non-GAAP net income from continuing operations attributable to the Company's shareholders enables NetEase's management to assess its operating results without considering the impact of share-based compensation expenses. NetEase believes that these non-GAAP financial measures provide useful information to investors in understanding and evaluating the Company's current operating performance and prospects in the same manner as management does, if they so choose. NetEase also believes that the use of this non-GAAP financial measure facilitates investors' assessment of its operating performance.

Non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. Non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using non-GAAP net income from continuing operations attributable to the Company's shareholders is that it does not reflect all items of expense/ income that affect our operations. Share-based compensation expenses have been and may continue to be incurred in NetEase's business and are not reflected in the presentation of non-GAAP net income from continuing operations attributable to the Company's shareholders. In addition, the non-GAAP financial measures NetEase uses may differ from the non-GAAP measures used by other companies, including peer companies, and therefore their comparability may be limited.

NetEase compensates for these limitations by reconciling non-GAAP net income from continuing operations attributable to the Company's shareholders to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating the Company's performance. See "Unaudited Reconciliation of GAAP and Non-GAAP Results" at the end of this announcement. NetEase encourages you to review its financial information in its entirety and not rely on a single financial measure.

NOTES TO UNAUDITED FINANCIAL INFORMATION

Note 1: The conversion of Renminbi (RMB) into United States dollars (USD) is based on the noon buying rate of USD1.00 = RMB6.6981 on the last trading day of June 2022 (June 30, 2022) as set forth in the H.10 statistical release of the U.S. Federal Reserve Board. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate on June 30, 2022, or at any other certain date.

Note 2: Share-based compensation cost reported in the Company's unaudited condensed consolidated statements of comprehensive income is set out as follows in RMB and USD (in thousands):

	Three Months Ended				Six Months Ended
