NetEase.com Reports Third Quarter 2007 Unaudited Financial Results

(Beijing – November 8, 2007) – NetEase.com, Inc. (NASDAQ: NTES), one of China's leading Internet and online game services providers, today announced its unaudited financial results for the quarter ended September 30, 2007.

William Ding, Chief Executive Officer and Director of NetEase stated, "During the third quarter of 2007, we continued to expand our research and development for new games, including fee-based and casual games. Westward Journey Online III was commercialized on September 12 and our newest expansion pack for Fantasy Westward Journey was released on September 25."

Mr. Ding continued, "We are pleased with our progress in creating and commercializing new ad space inventory via our free email services, which continue to lead the Chinese email market. We are committed to building our capacity and market share in the high growth domestic market by improved content and integrating our different products as the Beijing 2008 Olympic Games draw closer. In addition, we have added significant enhancements to our search engine, including more user-friendly and highly competitive features."

Third Quarter 2007 Financial Results

Total revenues for the third quarter of 2007 were RMB571.1 million (US\$76.2 million), compared to RMB558.0 million (US\$74.5 million) and RMB571.9 million (US\$76.3 million) for the preceding quarter and the third quarter of 2006, respectively.

Revenues from online games were RMB468.7 million (US\$63.4 million) for the third quarter of 2007, compared to RMB475.1 million (US\$63.4 million) and RMB467.9 million (US\$62.4 million) for the preceding quarter and the third quarter of 2006, respectively.

Revenues from advertising services were RMB85.5 million (US\$11.4 million) for the third quarter of 2007, compared to RMB65.3 million (US\$8.7 million) and RMB83.4 million (US\$11.1 million) for the preceding quarter and the third quarter of 2006, respectively.

Revenues from wireless value-added services and others were RMB16.9 million (US\$2.3 million) for the third quarter of 2007, compared to RMB17.5 million (US\$2.3 million) and RMB20.6 million (US\$2.8 million) for the preceding quarter and the third quarter of 2006, respectively.

Gross profit for the third quarter of 2007 was RMB441.9 million (US\$59.0 million), compared to RMB437.8 million (US\$58.4 million) and RMB448.1 million (US\$59.8 million) for the preceding quarter and the third quarter of 2006, respectively. The quarter-over-quarter increase in gross profit was primarily due to higher advertising services revenue in the third quarter of 2007. The year-over-year decrease in gross profit was mainly due to the decrease in wireless value-added services revenue.

Gross margin for the online game business for the third quarter of 2007 was 89.4%, compared to 90.2% and 89.4% for the preceding quarter and the third quarter of 2006, respectively. The quarter-over-quarter decrease was primarily due to lower game revenues resulting from increased competition coupled with higher cost of revenues. Higher cost of revenues was mainly the result of increased headcount and higher operational costs incurred during the third quarter of 2007. The year-over-year gross margin remained relatively stable.

Gross margin for the advertising business for the third quarter of 2007 was 54.0%, compared to 47.2% and 56.1% for the preceding quarter and the third quarter of 2006, respectively. The quarter-over-quarter increase in gross margin was primarily driven by the increase in advertising services revenue coupled with a lesser extent of increase in content costs in the third quarter of 2007. The year-over-year decline in gross margin was primarily driven by increased content costs incurred during the third quarter of 2007.

Gross loss margin for the wireless value-added services and others business for the third quarter of 2007 was 33.3%, compared to gross loss margin of 28.1% and gross profit margin of 3.4% for the preceding quarter and the third quarter of 2006, respectively. Both the quarter-over-quarter and year-over-year deepening in gross loss margin was primarily due to decreased revenue from wireless value-added services while operating expenses remained relatively fixed.

Total operating expenses for the third quarter of 2007 were RMB179.0 million (US\$23.9 million), compared to RMB142.8 million (US\$19.1 million) and RMB131.5 million (US\$17.5 million) for the preceding quarter and the third quarter of 2006, respectively. Both the quarter-over-quarter and year-over-year increase was primarily driven by increased spending on the advertising and marketing promotion of Westward Journey Online III and Fantasy Westward Journey, and higher staff-related cost as a result of an increase in research and development headcount.

Net profit for the third quarter of 2007 totaled RMB260.2 million (US\$4.7 million), compared to RMB312.6 million (US\$41.7 million) and RMB314.8 million (US\$42.0 million) for the preceding quarter and the third quarter of 2006, respectively. In June 2007, the Company received a reinvestment incentive tax refund of RMB24.4 million (US\$3.2 million), which significantly reduced the Company's income tax expense for the second quarter of 2007. NetEase reported basic and diluted earnings per American depositary share (ADS) of US\$0.28 and US\$0.27 for the third quarter of 2007, respectively. The Company reported basic and diluted earnings per ADS of US\$0.34 and US\$0.31 and US\$0.33 and US\$0.30 for the preceding quarter and the third quarter of 2006, respectively.

In addition, there was a restricted cash balance of RMB749.7 million (US\$100.1 million) as of September 30, 2007 primarily related to the Company's committed revolving loan facility, which is effective for a period from May 17, 2007 to July 31, 2008. The loan facility can be used by the Company at its discretion to fund any redemption requests made by the holders of its zero coupon convertible subordinated notes in accordance with the terms of those notes.
