NetEase Reports Second Quarter 2018 Unaudited Financial Results

(Beijing - August 8, 2018) - NetEase, Inc. (NASDAQ: NTESE) (“NetEase” or the “Company”), one of China’s leading internet and online game services providers, today announced its unaudited financial results for the second quarter ended June 30, 2018.

Second Quarter 2018 Financial Highlights

- Net revenues^[1] were RMB16.3 billion (US\$2.5 billion), an increase of 21.7% compared with the second quarter of 2017.
 - Online game services net revenues were RMB10.1 billion (US\$1.5 billion), an increase of 6.7% compared with the second quarter of 2017.
 - E-commerce net revenues were RMB4.4 billion (US\$659.7 million), an increase of 75.2% compared with the second quarter of 2017.
 - Advertising services net revenues were RMB634.1 million (US\$95.8 million), an increase of 6.5% compared with the second quarter of 2017.
 - E-mail and others net revenues were RMB1.2 billion (US\$184.9 million), an increase of 42.5% compared with the second quarter of 2017.
- Gross profit was RMB7.2 billion (US\$1.1 billion), an increase of 7.5% compared with the second quarter of 2017.
- Total operating expenses were RMB4.9 billion (US\$742.2 million), an increase of 47.4% compared with the second quarter of 2017.

^[1] The Company adopted ASC 606 as of January 1, 2018 on a modified retrospective basis. The adoption did not have a significant impact on the Company’s operating results for the second quarter of 2018 and comparable periods. See “Impact of the recently adopted major accounting pronouncements” in this press release.

- Net income attributable to the Company’s shareholders was RMB2.1 billion (US\$318.3 million). Non-GAAP net income attributable to the Company’s shareholders was RMB2.7 billion (US\$411.8 million).^[2]
- Diluted earnings per ADS were US\$2.44; non-GAAP diluted earnings per ADS were US\$3.15.

Second Quarter 2018 and Recent Operational Highlights

- Introduced new, highly acclaimed PC-client game *Justice* (formerly named *Open Range*) on June 29.
- Further diversified game portfolio with the launch of several successful non-MMORPG mobile games including *Shadowverse*, *Identity V* and *QwQ*.
- Strengthened global footprint with internationally acclaimed titles including:
 - *Knives Out*: Ranked No.1 on June’s iOS top grossing chart in Japan.
 - *Identity V*: Launched in Japan and became No.1 on the iOS and Google Play download charts in early July.
- Maintained popularity for PC-client and mobile flagship titles including *Fantasy Westward Journey*, *Westward Journey Online*, *New Ghost*, *Onmyoji* and *Invincible*.
- Expanded popularity of *Minecraft* in China reaching more than 100 million registered users.
- Acquired a minority stake in Bungie to support the incubation of new creative gameplay.
- Furthered pipeline expansion with advances in upcoming titles including *Ancient Nocturne* and *Night Falls: Survival*.
- Progressed growing e-commerce business and improved quarter-over-quarter gross profit margins.

“We are pleased with the solid growth we achieved across all of our business segments, including online games, e-commerce and advertising services, and the strong improvement to our bottom line,” said Mr. William Ding, Chief Executive Officer and Director of NetEase. “Our PC-client and mobile games continue to serve as dual growth engines. At the end of June, we launched the highly anticipated PC-client game *Justice*. Featuring exciting new state-of-the-art technology and graphics, *Justice* has become one of the most acclaimed PC games launched in China in recent years.

“On the mobile game side, our diversification strategy to expand our games portfolio beyond the MMORPG genre is proving effective. During the second quarter, we launched a number of highly successful games in non-MMORPG categories, including *Shadowverse*, *Identity V* and *QwQ*, each of which climbed to the top of the charts in China. With a number of new titles suitable for a global audience, we have quickly gained traction in overseas markets, led by games such as *Knives Out* and *Identity V*.

“Our e-commerce business also continues to thrive, and we are seeing improved quarter-over-quarter gross profit margin as we further optimize our product mix and procurement process.

^[2] As used in this press release, non-GAAP net income attributable to the Company’s shareholders is defined to exclude share-based compensation expenses. See “Unaudited Reconciliation of GAAP and Non-GAAP Results” at the end of this press release.

2

“Innovation and craftsmanship continue to serve as the cornerstone of each of our businesses. For more than two decades we have maintained these principles, propelling our relevancy and competitive edge. We believe these core values, our considerable R&D capabilities, and strong business acumen will continue to drive our future success,” concluded Mr. Ding.

Second Quarter 2018 Financial Results

Net Revenues

Net revenues for the second quarter of 2018 were RMB16,283.9 million (US\$2,460.9 million), compared to RMB14,173.0 million and RMB13,376.0 million for the preceding quarter and the second quarter of 2017, respectively.

Net revenues from online games were RMB10,060.8 million (US\$1,520.4 million) for the second quarter of 2018, compared to RMB8,761.2 million and RMB9,430.2 million for the preceding quarter and the second quarter of 2017, respectively. Mobile games accounted for approximately 74.7% of net revenues from online games for the second quarter of 2018, compared to 71.8% and 72.4% for the preceding quarter and the second quarter of 2017, respectively.

Net revenues from e-commerce were RMB4,365.5 million (US\$659.7 million) for the second quarter of 2018, compared to RMB3,732.5 million and RMB2,492.0 million for the preceding quarter and the second quarter of 2017, respectively.

Net revenues from advertising services were RMB634.1 million (US\$95.8 million) for the second quarter of 2018, compared to RMB462.0 million and RMB595.6 million for the preceding quarter and the second quarter of 2017, respectively. The top performing advertising verticals in the second quarter of 2018 were automobile, internet services and real estate sectors.

Net revenues from e-mail and others were RMB1,223.5 million (US\$184.9 million) for the second quarter of 2018, compared to RMB1,217.3 million and RMB858.3 million for the preceding quarter and the second quarter of 2017, respectively.

Gross Profit/(Loss)

Gross profit for the second quarter of 2018 was RMB7,245.1 million (US\$1,094.9 million), compared to RMB5,953.6 million and RMB6,736.9 million for the preceding quarter and the second quarter of 2017, respectively.

The year-over-year and quarter-over-quarter increases in online game services gross profit were primarily due to increased revenue contribution from self-developed mobile games such as *Chu Liu Xiang*, *Knives Out* and *Identity V*.

3

The year-over-year and quarter-over-quarter increases in e-commerce gross profit were primarily due to the rapid development of *Kaola.com* and *Yanxuan*.

The year-over-year increase in advertising services gross profit was primarily due to its enhanced monetization efforts. The quarter-over-quarter increase in advertising services gross profit was primarily due to seasonality.

The year-over-year increase in e-mail and others gross loss was primarily due to decreased revenue contribution from certain online platform businesses, which have relatively higher gross profit margins, as well as higher recognized costs related to certain licensed music content. The quarter-over-quarter decrease in e-mail and others gross loss was primarily due to higher recognized costs related to certain licensed music content in the preceding quarter.

Gross Profit/(Loss) Margin

Gross profit margin for online game services for the second quarter of 2018 was 64.3%, compared to 62.1% and 63.1% for the preceding quarter and the second quarter of 2017, respectively. The year-over-year and quarter-over-quarter increases in gross profit margin were mainly due to increased revenue, while certain costs related to the Company’s online games segment were fixed.

Gross profit margin for e-commerce for the second quarter of 2018 was 10.1%, compared to 9.5% and 12.6% for the preceding quarter and the second quarter of 2017, respectively. The year-over-year decrease in e-commerce gross profit margin was primarily due to certain sales discounts in the second quarter of

2018 to support the rapid development of *Kaola.com* and *Yanxuan*. The quarter-over-quarter increase in e-commerce gross profit margin was primarily due to improved product mix and procurement process.

Gross profit margin for advertising services for the second quarter of 2018 was 67.0%, compared to 59.0% and 67.6% for the preceding quarter and the second quarter of 2017, respectively. The quarter-over-quarter increase in gross profit margin was mainly due to seasonality.

Gross loss margin for e-mail and others for the second quarter of 2018 was 7.3%, compared to gross loss margin of 9.9% and gross profit margin of 7.7% for the preceding quarter and the second quarter of 2017, respectively. The year-over-year decrease in gross margin was primarily due to decreased revenue contribution from certain online platform businesses, which have relatively higher gross profit margins, as well as higher recognized costs related to certain licensed music content in the second quarter of 2018. The quarter-over-quarter improvement in e-mail and others gross margin was primarily due to higher recognized costs related to certain licensed music content in the preceding quarter.

Operating Expenses

Total operating expenses for the second quarter of 2018 were RMB4,911.5 million (US\$742.2 million), compared to RMB4,746.6 million and RMB3,331.5 million for the preceding quarter and the second quarter of 2017, respectively. The year-over-year increase in operating expenses was mainly due to increased marketing expenditures, research and development investments and shipping and handling costs, as well as higher staff-related costs. The quarter-over-quarter increase in operating expenses was mainly due to increased staff-related costs and research and development investments, and partially offset by decreased marketing expenditures related to online games. Shipping and handling costs included in selling and marketing expenses for the second quarter of 2018 were RMB386.6 million (US\$58.4 million), compared to RMB325.8 million and RMB281.3 million for the preceding quarter and the second quarter of 2017, respectively.

4

Income Taxes

The Company recorded a net income tax charge of RMB420.5 million (US\$63.6 million) for the second quarter of 2018, compared to RMB282.7 million and RMB703.5 million for the preceding quarter and the second quarter of 2017, respectively. The effective tax rate for the second quarter of 2018 was 15.7%, compared to 26.0% and 19.0% for the preceding quarter and the second quarter of 2017, respectively. The year-over-year and quarter-over-quarter changes in the effective tax rate were mainly due to the fact that certain subsidiaries of the Company were recognized as Key Software Enterprises in the second quarter of 2018, and therefore subject to a preferential tax rate of 10% for 2017. The Company recognized related tax credits in the second quarter of 2018 accordingly. The effective tax rate represents certain estimates by the Company as to the tax obligations and benefits applicable to it in each quarter.

Net Income After Tax

Net income attributable to the Company's shareholders for the second quarter of 2018 totaled RMB2.1 billion (US\$318.3 million), compared to RMB751.9 million and RMB3.0 billion for the preceding quarter and the second quarter of 2017, respectively. Non-GAAP net income attributable to the Company's shareholders for the second quarter of 2018 totaled RMB2.7 billion (US\$411.8 million), compared to RMB1.3 billion and RMB3.5 billion for the preceding quarter and the second quarter of 2017, respectively.

During the second quarter of 2018, the Company had a net foreign exchange gain of RMB232.8 million (US\$35.2 million), compared to net foreign exchange losses of RMB375.1 million and RMB131.3 million for the preceding quarter and the second quarter of 2017, respectively. The year-over-year and quarter-over-quarter changes in foreign exchange gains and losses were mainly due to unrealized exchange gains and losses arising from the Company's U.S. dollar-denominated bank deposits and short-term loan balances as the exchange rate of the U.S. dollar against the RMB fluctuated over the periods.

NetEase reported basic and diluted earnings per ADS of US\$2.45 and US\$2.44, respectively, for the second quarter of 2018. The Company reported basic and diluted earnings per ADS of US\$0.87 and US\$0.86, respectively, for the preceding quarter, and basic and diluted earnings per ADS of US\$3.41 and US\$3.39, respectively, for the second quarter of 2017. Non-GAAP basic and diluted earnings per ADS were US\$3.17 and US\$3.15, respectively, for the second quarter of 2018, compared to non-GAAP basic and diluted earnings per ADS of US\$1.54 and US\$1.53, respectively, for the preceding quarter, and non-GAAP basic and diluted earnings per ADS of US\$3.98 and US\$3.96, respectively, for the second quarter of 2017.

5

Quarterly Dividend

The board of directors has approved a dividend of US\$0.61 per ADS for the second quarter of 2018, which is expected to be paid on August 31, 2018 to shareholders of record as of the close of business on August 24, 2018.

NetEase paid a dividend of US\$0.38 per ADS for the fourth quarter of 2017 on March 2, 2018 and paid a dividend of US\$0.23 per ADS for the first quarter of 2018 on June 8, 2018.

Under the Company's quarterly dividend policy announced on May 13, 2014, quarterly dividends will be set at an amount equivalent to approximately 25% of the Company's anticipated net income after tax in each fiscal quarter. The determination to make dividend distributions and the amount of such distributions in any particular quarter will be made at the discretion of the board of directors and will be based upon the Company's operations and earnings, cash flow, financial condition and other relevant factors.

Other Information

As of June 30, 2018, the Company's total cash and cash equivalents, current and non-current time deposits and short-term investments balance totaled RMB44.3 billion (US\$6.7 billion), compared to RMB43.2 billion as of December 31, 2017. Cash flow generated from operating activities was RMB2.0 billion (US\$295.9 million) for the second quarter of 2018, compared to RMB1.9 billion and RMB2.3 billion for the preceding quarter and the second quarter of 2017, respectively.

Share Repurchase Program

On November 15, 2017, the Company announced that its board of directors had approved a new share repurchase program of up to US\$1.0 billion of the Company's outstanding ADSs for a period not to exceed 12 months beginning on November 16, 2017. On June 11, 2018, the Company announced that its board of directors approved an amendment to its share repurchase program, authorizing the repurchase of up to an additional US\$1.0 billion of the Company's outstanding ADSs. This expands the US\$1.0 billion repurchase program that was approved on November 15, 2017 for a period not to exceed 12 months, bringing the total authorized repurchase amount to US\$2.0 billion.

As of June 30, 2018, the Company had repurchased approximately 3.4 million ADSs for approximately US\$912.0 million under this program.

Under the terms of the current approved program, NetEase may repurchase its issued and outstanding ADSs in open-market transactions on the NASDAQ Global Select Market. The timing and dollar amount of repurchase transactions will be subject to the Securities and Exchange Commission (SEC) Rule 10b-18 requirements. It is also expected that such repurchases will be effected pursuant to a plan in conformity with SEC Rule 10b5-1. The extent to which NetEase repurchases its ADSs will depend upon a variety of factors, including market conditions, regulatory requirements and other corporate considerations, as determined by NetEase's management team. The repurchase program may be suspended or discontinued at any time.

6

** The United States dollar (US\$) amounts disclosed in this press release are presented solely for the convenience of the reader. Translations of amounts from RMB into United States dollars for the convenience of the reader were calculated at the noon buying rate of US\$1.00 = RMB6.6171 on June 29, 2018 as set forth in the H.10 statistical release of the U.S. Federal Reserve Board. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate on June 29, 2018, or at any other certain date. The percentages stated are calculated based on RMB.

Change in Segment Reporting

Effective in the fourth quarter of 2017, the Company changed its segment disclosure to separately report the financial results of its e-commerce business in light of the significant growth of the revenue contribution from e-commerce to the Company's total consolidated net revenues in 2017. This segment primarily reflects the results of NetEase's two e-commerce platforms, *Kaola.com* and *Yanxuan*, which were established in January 2015 and April 2016, respectively. The Company now reports four reporting segments: online game services, e-commerce, advertising services, and e-mail and others. This change in segment reporting aligns with the manner in which the Company's operating decision maker ("CODM") currently receives and uses financial information to allocate resources and evaluate the performance of reporting segments. This change in segment presentation does not affect consolidated balance sheets, consolidated statements of income or consolidated statements of cash flows. The Company retrospectively revised prior period segment information to conform to current period presentation.

Impact of the recently adopted major accounting pronouncements

On January 1, 2018, the Company adopted Topic 606 "Revenue from Contracts with Customers" using the modified-retrospective transition approach and recorded a reduction of its deferred revenue of approximately RMB81.7 million and a net increase to its retained earnings of approximately RMB27.4 million (net of tax) as a result of estimating game point breakage. The adoption of Topic 606 did not have a significant impact on the Company's operating results for the second quarter of 2018 and comparable periods.

On January 1, 2018, the Company adopted ASU No. 2016-01 "Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities.", and reclassified RMB38.2 million of accumulated other comprehensive income for the Company's available-for-sale equity securities that existed as of December 31, 2017 into retained earnings upon the adoption. In addition, the Company recorded a net investment loss of RMB78.5 million and RMB56.3 million related to the equity investments with readily determinable fair value in the second quarter and the first quarter of 2018, respectively. Given that there were no material observable price changes in orderly transactions for the identical or similar investments of the same issuer, the Company did not record any changes to the carrying value of equity investments without readily determinable fair value in the first half of 2018.

The Company also adopted ASU 2016-18 "Statement of Cash Flows (Topic 230): Restricted Cash" starting from the first quarter of 2018. Pursuant to the new guidance, the Company's cash, cash equivalents and restricted cash increased by an aggregate of RMB717.9 million for the second quarter of 2017, compared to the amounts presented under previous guidance.

7

Conference Call

NetEase's management team will host a teleconference call with simultaneous webcast at 9:00 p.m. Eastern Time on Wednesday, August 8, 2018 (Beijing/Hong Kong Time: 9:00 a.m., Thursday, August 9, 2018). NetEase's management will be on the call to discuss the quarterly results and answer questions.

Interested parties may participate in the conference call by dialing 1-929-477-0324 (international: 1-800-458-4121), 10-15 minutes prior to the initiation of the call. A replay of the call will be available by dialing 1-719-457-0820 (international: 1-888-203-1112), and entering passcode 8957911#. The replay will be available through August 22, 2018.

This call will be webcast live and the replay will be available for 12 months. Both will be available on NetEase's Investor Relations website at <http://ir.netease.com>.

About NetEase, Inc.

NetEase, Inc. (NASDAQ: NTES) is a leading internet technology company in China dedicated to providing online services centered around content, community, communication and commerce. NetEase develops and operates some of China's most popular PC-client and mobile games, and partners with

Blizzard Entertainment, Mojang AB (a Microsoft subsidiary) and other global game developers to operate some of the most popular international online games in China. NetEase also operates *Kaola.com* and *Yanxuan*, two e-commerce platforms that cater to the rising middle-class consumer market in China. In addition, NetEase offers advertising, e-mail and other services. For more information, please visit: <http://ir.netease.com/>.

Forward Looking Statements

This press release contains statements of a forward-looking nature. These statements are made under the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify these forward-looking statements by terminology such as “will,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates” and similar statements. The accuracy of these statements may be impacted by a number of business risks and uncertainties that could cause actual results to differ materially from those projected or anticipated, including risks related to: the risk that the online game market will not continue to grow or that NetEase will not be able to maintain its leading position in that market, which could occur if, for example, its new online games or expansion packs and other improvements to its existing games do not become as popular as management anticipates; the ability of NetEase to successfully expand its mobile internet offerings; the ability of NetEase to effectively market its games and other services and achieve a positive return on its marketing expenditures; the risk that NetEase’s affiliates will not be able to continue operating *Minecraft*, *World of Warcraft*®, *StarCraft*® II, *Hearthstone*®, *Diablo*® III: *Reaper of Souls*™, *Heroes of the Storm*®, *Overwatch*® or other games licensed by it for a period of time or permanently due to possible governmental actions or the risk that such games will not be popular with game players in China; the risk that changes in Chinese government regulation of the online game market and the market for NetEase’s e-commerce businesses may limit future growth of NetEase’s revenues or cause revenues to decline; competition in the online advertising business and the risk that investments by NetEase in its content and services may not increase the appeal of the NetEase websites among internet users or result in increased advertising revenues; the risk that NetEase may not be able to continuously develop new and creative online services, including its ability to maintain and enhance the popularity of its e-mail, mobile and e-commerce businesses and develop attractive mobile games; the risk that NetEase will not be able to control its expenses in future periods; competition in NetEase’s existing and potential markets; governmental uncertainties (including possible changes in the effective tax rates applicable to NetEase and its subsidiaries and affiliates and the ability of NetEase to receive and maintain approvals of the preferential tax treatments and general competition and price pressures in the marketplace); the risk that fluctuations in the value of the Renminbi with respect to other currencies could adversely affect NetEase’s business and financial results; and other risks outlined in NetEase’s filings with the Securities and Exchange Commission. NetEase does not undertake any obligation to update this forward-looking information, except as required under the applicable law.

8

Non-GAAP Financial Measures

NetEase considers and uses non-GAAP financial measures, such as non-GAAP net income attributable to the Company’s shareholders and non-GAAP basic and diluted earnings per ADS, as supplemental metrics in reviewing and assessing its operating performance and formulating its business plan. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

NetEase defines non-GAAP net income attributable to the Company’s shareholders as net income attributable to the Company’s shareholders excluding share-based compensation expenses. Non-GAAP net income attributable to the Company’s shareholders enables NetEase’s management to assess its operating results without considering the impact of share-based compensation expenses, which are non-cash charges. NetEase believes that these non-GAAP financial measures provide useful information to investors in understanding and evaluating the Company’s current operating performance and future prospects in the same manner as management does, if they so choose. NetEase also believes that the use of this non-GAAP financial measure facilitates investors’ assessment of its operating performance.

Non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. Non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using non-GAAP net income attributable to the Company’s shareholders is that it does not reflect all items of expense that affect our operations. Share-based compensation expenses have been and may continue to be incurred in our business and are not reflected in the presentation of non-GAAP net income attributable to the Company’s shareholders. In addition, the non-GAAP financial measures NetEase uses may differ from the non-GAAP measures used by other companies, including peer companies, and therefore their comparability may be limited.

NetEase compensates for these limitations by reconciling non-GAAP net income attributable to the Company’s shareholders to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating the Company’s performance. See “Reconciliation of GAAP and Non-GAAP Results” at the end of this press release. NetEase encourages you to review its financial information in its entirety and not rely on a single financial measure.

Fixed asset purchases financed by accounts payable and accrued liabilities	259,657	327,030	362,207	54,738

*In 2018, the Company adopted the guidance of ASU 2016-18 issued by FASB in November 2016, which requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, the Company included restricted cash with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown in the statement of cash flows. Pursuant to the guidance, the Company retrospectively restated the statement of cash flows in the comparative periods.
